Settings

Volume:**Difficulty:****Easy****Normal****Hard**

When the user clicks on the Settings button on the Main Menu, it would allow the user to change the volume (type a number between 0 and 100), and change the difficulty of the game.

Lives:

Points:

Timer:

When the user clicks on the Start button on the Main Menu, the game starts.

The user can play the game, while seeing how many lives and points they have. Also, they can see the timer.

If the user presses the `esc` button on their keyboard, it would pause the game.

Continue

Main Menu

Exit

When the user clicks on the `esc` button on their keyboard while playing the game, the game gets paused.

The user can continue the game, go back to the Main Menu page, or exit the game.

When the user finishes the game (either loses the game, or wins the game), this screen gets shown to the user.

The user can see their time and score for this round, and can either play again by clicking on the Replay button, go back to the Main Menu by clicking on the Main Menu button, or exit the game by clicking on the Exit button.
